WORK EXPERIENCE

Associate Professional Software Engineer
DXC Technology

01/2021 - 05/2022   *Chennai, India*

Achievements/Tasks

- Contributed to the Development team, especially on the Web platform.
- Worked on every facet in the development of an end-to-end website development using HTML5, CSS3, React.
- Trained myself on numerous technologies - especially related to Web development such as Firebase, GraphQL, StripeAPI.
- Been part of the support team managing issues on various parts of the stack under pressure and hard deadlines.

PROJECTS

E-commerce Web application (10/2022 - 12/2022)
- Developed an end-to-end E-Commerce website with user management and payment processing. Built using ReactJS on a Firebase database with Stripe API based payment system.

Online Portfolio Web Application (06/2022 - 06/2022)
- Developed an end-to-end website that effectively captures my portfolio including skills, interests and experience. Built using HTML, CSS and JS with Google Sheets integrated for response tracking.

Cooking guide Web application (07/2022 - 07/2022)
- Created a web application which allows the user to check for food recipes along with the cooking steps, cook time and also increase or decrease the amount of servings they need and bookmark the checked recipes. Built using HTML, CSS and JS.

Omnifood Web application (08/2022 - 08/2022)
- Built food delivery application home page UI with pure HTML5 and CSS3, and made responsive without the use of bootstrap.

EDUCATION

B.E - Computer Science
Madras Institute of Technology

08/2016 - 04/2020   *CGPA:7.00*

Contribution

- Contributed in developing online registration websites for department symposiums.
